BIG INCREASE IN CASH

WEEK'S BANKING OPERATIONS.

Loans Also Are Greatly Expanded-Trend of Prices During the Week -Conditions in Local Circles.

At New York, Saturday, money on call was easy at 11/2 per cent.

Prime mercantile paper, 31/241/4 per cent. Sterling exchange was steady, with actual business in bankers' bills at \$4.87%@ 4.87% for demand and \$4.84%4.84% for sixty days; posted rates, \$4.851/2 and \$4.881/2; commercial bills, \$4.83%, @4.84.

Silver certificates were 60@6ic; bar silver. 60c; Mexican dollars, 47%c. At London bar

silver was 27 9-16d an ounce. Imports of specie for the week at the port of New York were \$26,138 in gold and \$697 in silver. Exports to all countries for the same period were \$39,870 in gold and \$934,370 in silver bars and coin.

Dry goods and merchandise imports at the port of New York were worth \$9,120,718 | tained above last year's high level, but the for the week.

The weekly statement of the associated New York banks, issued Saturday, shows the following changes:

Surplus reserves, increase...... \$1,310,950 oans, increase 7,347,600

Circulation, increase 498,400 The banks new hold \$20,123,275 in excess of the requirements of the 25 per cent. rule The Financier says: "The banks of New

York city gained over \$4,000,000 in cash, last week, as a result of their operations with the interior and the treasury. This was largely in excess of the known receipts of currency, but even more surprising was the expansion of \$7,347,600 in loans, with a coincident rise of \$11,344,200 in deposits. As a usual thing, unexpected changes of large olume in the statement can be traced to the operations of one or more large institutions, but in the present case the increase seems to have been distributed impartially There has been no demand for funds, other than normal, and the inference is that the sudden rise reflects one or two belated special operations previously mentioned in this analysis. The loan total, now standing at \$800,268,600, is the largest in the history of New York Clearing House, and surpasses by nearly six and one-half millions the previous high water mark, recorded 8, last year. The loan item has expanded twelve and one-half millions since May 5, last. In 1899, the same period witnessed decline of \$30,000,000, but beginning in June, there was a sudden jump in loans which placed the total in July, as stated, at the highest point then known. In the face the present conditions it does not seem possible that there can be a continuance of the factors which are responsible for the heavy changes noted above. At this time last year the surplus of the banks was nearly forty-three millions, and two years ago it was \$52,000,000. In each year the repeated now, the present excess of \$20,-00,000 will dwindle very rapidly. Still the banks are holding their own, for the surplus, in spite of the heavy demands made for increased reserved requirements, is actually rising. The approach of the crop season probably will vitness a liquidation of the heavy volume of outstanding commitments, although that gold will come from Europe is as yet an undecided point. Bank circulation increased largely in May, and gold from the Klondike will be arriving soon. Per capita circulation is actually expanding, despite exports of gold, but the money of the country is in use by the banks. The present total of deposits, how-ever, in New York, is nearly \$27,000,000 under

the maximum reported March 4, 1899. Even

on that date the surplus cash in banks

was over four millions in excess of what

is held at present." REVIEW OF WALL STREET. St. Louis & San Fran. There was manifest hesitation in the trend of prices of stocks Saturday and a doubt was disclosed whether the upward movement was not to prove abortive. American securities got practically no support in the London market, where duliness reigned in anticipation of the Whitsuntide holidays. The only stock in demand for London account was Baltimore & Ohio, which touched 83 in the New York market, an extreme advance of 2%, on rumors of an early dividend on the stock. Efforts were made to put up Southern Pacific on the expressed satisfaction of the president of the company with the prospects of the company. There were also one or two minor railroad stocks which moved up-These sustaining influences, however, failed to hold the market, and the bulls sought to take profits, with resulting lesses in prices which reached to be-American Cotton Oil..... tween one and two points in some stocks. The bank statement proved sappointing in some items and mystifyin others, and turned sentiment to-American Tin Plate wards reaction, the closing being heavy and unsettled on a declining scale. The American Tin Plate pref. gain in cash showed Friday's preliminary American Anaconda Mining Co..... estimates much at fault. They calculated on a gain in cash by the banks of less than \$2,000,000, Indicating a falling off in the return flow of currency from the in-Continental Tobacco pref...... terior compared with last week of a million dollars. The bulls accepted this calculation General Blectric as an encouraging factor Friday as indicating an increased use for money and greater trade activity. But the actual bank International Paper Interior of a million more dollars than last National week. There have been no known opera- National tions during the week to account for a loan expansion, but the day's large bank clearings indicate a special transaction. New York Air-brake The higher rates for money ruling in Ber-North American Pacific Coast lin make it probable that further Ameri-can capital is being placed at interest there. The additional reserve requirement result-Pacific Coast second pref...... ing from the loan and deposit increase brought down the increase in surplus reserves to \$1,310,950.

There has been some slight stirring of speculative interest in the stock market during the week, and a show of strength, ing in the minds of professional traders hopes that the market was on the eve of an inflow of capital into securities. Sundry causes have contributed to the modicum of strength in stocks during the week. The midweek holiday prompted to the covering of traders' contracts, and as traders have been quite generally on the bear side for some time past the covering movement had the effect of lifting prices. Evidently the shorts were rather nonplussed over the equanimity with which the stock market had accepted the large brokerage failure ast week and the smaller one this week, and they thought it safer to cover. On Thursday morning came the news that Johannesburg and the gold mines were in British hands again, and the report that Pretoria had yielded without a struggle. At the same time there was renewed specuaffve excitement in Sugar over the news of the arrangement for taking over certain of the independent refinerles in the interest of the American Sugar Refining Company, The response of the world's stock mar-kets, including London, to the news of the collapse of the Boer defense and the expectation of the near ending of the war in south Africa was very moderate. In the eye of the financial world the crucial point of the war was passed when the gold mines at Johannesburg were secured from the destruction which was feared at the hands of the Boers. With an early renewal thus assured of the supply of money metal from that source the war shrinks to small proportions as a factor in the world's economy. e slight response of the stock markets at this decisive stage in the war must mean that the event had been pretty fully discounted in prices, or there must be other causes in the background to exercise a repressive influence on the markets. The act that mining stocks rule at near the high-record prices in London is indicative of a discounting of the South African war

FOREIGN MONEY MARKETS. The events centering in Peking, coupled with the strained relations between Russia and Japan over Korea, are suggestive ofpossibilities of a clash in the adjustment f rivalries of the powers in the far east. The fact that the Bank of England refrained from following the decline in the private rate and indicated a preference for additional repayment of loans by the mar set shows the desire of the authorities of

that institution to fortify its already strong position. What the contingency may be against which provision is thus made is not evident, in view of the current ease of money all over the world, but experience abundantly justifies the confidence that the REMARKABLE RESULT OF THE Bank of England's governors have sources of information of coming events not vouchsafed to the ordinary financial community. Disappointment was palpable in the New York market, both on Thursday morning and on Friday morning, over the failure | wagon wheat, 72c. of foreign markets to respond more large-

the consumptive requirements will prove 2; total, 5 cars. sufficient to maintain prosperous conditions in this important trade. Reports are current of foreign contracts which will absorb considerable tonnage, and iron-mining shares in Berlin have been weak on reports of American offers of iron. These encouraging factors in the trade have had some effect on the shares of steel industrials, but the manner in which these stocks have been manipulated causes distrust of them. For this reason, probably, the sympathetic effect of the improved sentiment in the iron trade on the stock market at large has not been sufficiently estimated. Railroad earnings are well mainhigh prices of material make growing requirements for operating expenses which affect the balance for net earnings. High prices for iron and steel products and for coal make notable increase in expenses of operating railroads, and, in addition, the falling off in freight traffic makes competition keener and the probability that the

decline in traffic is caused partly by high freight tariffs tempts to rate cutting. In the Southwest and West the good progress made by the winter wheat and other crops has given strength to stocks of railroads running through that region. In the bond market there has been some improvement in demand and in prices, as a result of the accumulation of idle money and the apathetic demand for funds at the money markets. The volume offering of well-secured bonds is small and prices ad-

vanced easily with any considerable de-United States refunding registered twos. when issued, and the threes declined hand old fours registered and five him

TRADE WAS VERY DULL

WHEAT LOWER ON GENERAL STAG-The local grain market was slow. The weather NATION AND NEEDED RAINS.

> Corn Firm and a Shade Higher-Oats the Day-Provisions Closed with Mixed Changes.

CHICAGO, June 2. - Business on the Board of Trade was dull to-day. Wheat closed 4c lower, corn a shade higher, oats a shade depressed and provisions from 21/20 5c higher to 71/2@10c depressed. There was no news of great importance.

The spark of life in the wheat market was very feeble. Speculators have a habit of doing very little on Saturday, and to day, with Liverpool closed, they were still less inclined to bestir themselves. The market opened firm because it was reported at noon the Northwest needed more rain. but shortly afterward reacted on the general prediction of more rains; the general stagnation here and the relative weakness of Northwestern markets. July opened unchanged at 67c to 67%c, sold to 671%c and then declined to 661/2c, closing heavy, 4c under yesterday, at 66%@66%c. Primary receipts were 539,000 bu, compared with 835,000 last year. Minneapolis and Duluth reported 516 cars, against 503 last week and 642 a year ago. Local receipts were 59 cars, one of contract grade. Clearances at the seaboard were equal in wheat and flour to 423,000 bu. New York reported

28 loads taken for export. The market for corn was quiet, but firm. Country acceptances and receipts were Miscellaneous—Blackberries, 2-lb, 85@90c; rasp-berries, 3-lb, \$1.25@1.30; pineapples, standard, 2-lb, \$1.85@1.90; choice, \$2@2.10; cove oysters, 1-lb, full weight, \$1.05@1.10; light, 60@65c; string beans, 3-lb, 90@95c; Lima beans, \$1.20@1.25; peas, marrowfats, 95c@\$1; early June, \$1.10@1.15; lobsters, \$1.85@2; red cherries, 90c@\$1; strawber-ries, 85@90c; salmon, 1-lb, 95c@\$2; 3-lb tomatoes, \$5.000c both small, and the bull contingent lent some support. Crop prospects were still reported favorable, and the heaviness of wheat pulled the market down some, but the end of the session found the market firm. July sold between 37% @371/c and Candies—Stick, 6427c per lb; common mixed, 6264c; grocers' mixed, 5c; Banner twist stick, 8c; cream mixed, 9c; old-time mixed, 7c.
Nuts—Soft-shelled almonds, 13218c; English walnuts, 12214c; Brazil nuts, 9c; filberts, 11c; peanuts, roasted, 728c; mixed nuts, 10c. 571/sc, closing a shade over yesterday at 57%c. Receipts here were 282 cars. There was a fair cash demand.

The trade in oats was unimportant. July sold between 214@21%c and 214@21%c, closing a shade under yesterday at 211/60211/4c.

Receipts here were 242 cars. Provisions were firm as to meats and weak as to lard. The lard weakness was a decrease had been expected. Trade was quiet. July pork sold between \$11.124@11.15 and \$11.10, closing unchanged at \$11.15; July lard between \$6.7214 and \$6.6214, closing 71/20 10c depressed, at \$6.62\(\frac{1}{2}\)(6.65, and July ribs between \$6.47\(\frac{1}{2}\) and \$6.42\(\frac{1}{2}\), with the close 21/205c higher, at \$6.45@6.471/2.

Estimated receipts Monday: Wheat, 55 cars; corn, 500 cars; oats, 280 cars; hogs, Leading futures ranged as follows; Articles. Openest.

LIVE STOCK QUOTATIONS

CATTLE QUIET AND STEADY AT ABOUT PREVIOUS FIGURES.

Hogs Fairly Active at Steady to Fiv Cents Lower Prices - Sheep

Quiet-Markets Elsewhere.

UNION STOCKYARDS, INDIANAPOLIS June 2.-Cattle-Receipts light; shipments none. The receipts of cattle were not im proved compared with the average at this time in the week, and, as usual on Saturcay, the market was quiet at quotably un changed prices compared with yesterday. The receipts this week are fully 200 larger than last week and the same week a year ago, and the receipts for five months are a little over 900 smaller than the same period last year. From the beginning of the week there was a weaker tendency in the market, especially for all female cattle and heavy steers, and subsequent sales show a decline of 10@25c on the former and fully 15c on the latter compared with the close of last week. Handy light butcher steers and best heifers did not show a great deal of change, but sales were hardly as satisfactory to salesmen. With ample supplies at the close of the week buyers tried to force a further reduction in prices, but with a very good demand there was very little. If any, change to note compared with the decline noted earlier in the week. It is expected, however, that the approach of the grass season will see a further reduction in values. Quotations:

Good to prime steers, 1,350 lbs and upwards Fair to medium steers, 1,350 lbs and upwards Good to choice 1,150 to 1,300-lb steers Fair to medium 1,150 to 1,300-lb Medium to good 900 to 1,100-lb lood to choice feeding steers.... 4.50@ 4.90 Fair to medium feeding steers.... 4.00@ 4.40 3,50@ 4.35 Common to good stockers...... Good to choice heifers..... 4.40@ 5.00 | Fair to medium heifers..... 4.00@ 4.30 Common light heifers...... 3.50@ 3.90 Good to choice cows....... 4.00@ 4.50 Prime to fancy export bulls..... 3.85@ 4.35 Good to choice butcher bulls..... 3.25@ 3.75 Common to fair bulls...... 2.75@ 3.25 Good to choice cows and calves.. 35.00@50.00 Common to medium cows and calves 15.00@30.00

Hogs - Receipts, 3,500; shipments, 1,000. The hog market was reasonably active with all buyers in the field, but the bidding was generally lower. A few sales were reported on the opening at about steady prices, others 21/2c lower, and generally the market was considered 5c below yesterday. The receipts this week show an increase of 4,500 over last week and 2,000 over the corresponding week a year ago. Thus far this year the receipts are over 98,000 smaller than the same period last year. The market opened with a downward movement in prices, and at the low time with the high time. At current prices there has been a very good demand from local packers, but on account of the narrow margin between prices here and in Eastern markets there were not many

shipping orders. Quotations: Good to choice medium and Common to good pigs 4.00@4.75 Roughs 4.25@4.75 Sheep-Receipts light; shipments none.

There were few fresh arrivals of sheep or lambs, and the market was quiet, with sales usually at about steady prices compared with yesterday. The receipts this week are 150 larger than last week and over 800 smaller than the same week a year ago; the receipts for five months were 3,200 smaller than the same period a year ago. There were no new features in the trade this week, except that there was a further reduction in prices of spring lambs. The supplies were not large enough to cause active competition between buyers, but there was some demand from all sources. Best sheep and yearlings sold usually at steady prices, and some dealers thought there was a steadler feeling in the trade at the close of the week than at the opening.

Good to choice clipped lambs...... 5.00@5.50 Good to choice sheep 4.00@4.25 Common to medium sheep...... 3.00@3.75

tions opened steady on bullish statistics, continued drought in the Northwest and steadiness abroad, but later gave way un-APOLIS, June 2.-Cattle-Receipts, 60; shipments, 40. The quality was generally High-Class Newspaper fair. The market opened steady but quiet, with no change in prices. The supply was light and soon changed hands at steady to strong prices, closing firm. Quotations: Good to prime export steers, 1,350

to 1,500 lbs average\$5.20@ 5.50 1,200 to 1,500 lbs average 5.10@ 5.25 lbs average 4.50@ 4.90 Light stockers 3.75@ 4.25 Good to prime heavy heifers 4.25@ 4.75 Common to medium heifers 3.75@ 4.25
